KEY PROJECTS

LinkedIn-Inspired Social Networking Platform

FEATURED FULL-STACK PROJECT

MongoDB | Express.js | React.js | Node.js | Socket.IO | Tailwind CSS

- **Authentication & Security:** Architected and deployed a full-stack social networking platform with secure JWT-based user authentication and session handling.
- **Interactive Features:** Implemented core features including post creation, commenting system, connection management, and profile/cover image uploads.
- **Real-Time Engine:** Integrated Socket.IO to power real-time notifications and instant updates across connected user feeds.
- **API Architecture:** Designed and integrated modular RESTful backend API endpoints connected to MongoDB database services.
